Question - Français / French:	Avez-vous complété avec succès deux années d'un programme d'études postsecondaires acceptable en informatique, en technologie de l'information, en gestion de l'information ou dans une autre discipline liée aux fonctions du poste à pourvoir? Les combinaisons suivantes d'études, de formation ou d'expérience constituent une équivalence acceptable à l'exigence minimale en matière d'études postsecondaires : Diplôme d'une université reconnue + une année d'expérience en GI-TI; ou Deux années d'études postsecondaires terminées avec succès + deux années d'expérience en GI-TI; ou Diplôme d'études secondaires + une formation spécialisée en GI-TI + cinq années d'expérience en GI-TI.
Question - Anglais / English:	Have you successfully completed two years of an acceptable post-secondary education program in computer science, information technology, information management or another specialty relevant to the position being staffed? The following combinations of education, training, or experience constitute an acceptable alternative to the minimum post-secondary education: Degree from a recognized university + one year of experience in IM/ IT; or Successful completion of two years of post-secondary education + two years of experience in IM/IT; or Successful completion of secondary school + specialized IM/IT training + five years of experience in IM/IT. Note: Indeterminate period incumbents of positions in the CS group on May 10, 1999, who do not possess the education prescribed above, are deemed to meet the minimum education standards based on their education, training and/or experience.
Réponse du postulant / Applicant Answer:	Oui / Yes
Question Complémentaire -	Veuillez expliquer comment vous rencontrez ce critère de mérite essentiel.
Français / French:	nan
Complementary Question - Anglais / English:	Please explain how you meet this essential education criteria.
Réponse Complémentaire: / Complementary Answer: I have successfully obtained a three year post-secondary diploma in the field of Information Technology Security offered by La Cité Collégiale. (Technologie de la Sécurité de l'Information - May 2009).	nan

Question - Français / French:	Commun à tous les volets - Avez-vous l'expérience **appréciable de la planification et de l'exécution?Jio au moins l'un des domaines suivants : projets de GI-TI, logiciels de système ou d'application,jio infrastructures de TI ou services de TI comme la vérification?jio**On entend par « expérience appréciable » l'expérience associée à l'exécution d'une vaste gammejio d'activités connexes de niveau complexe pendant une période d'au moins deux ans.
Question - Anglais / English:	Common to all Streams - Do you have **significant experience in planning and delivery of at leastJio one of the following: IM/IT projects, system or application software, IT infrastructures, or IT services?jio**Significant is defined as the breadth and depth of experience associated with having performed aJio broad range of various, complex related activities over a period of at least 2 years.
Réponse du postulant -jioApplicant Answer:	Oui / Yes
Question Complémentaire -jioFrançais / French:	Veuillez expliquer en 400 mots maximum comment vous rencontrez cette expérience. S.v.p. donnezJio des exemples concrets et indiquez le(s) poste(s) que vous occupiez ainsi que le nombre d'annéesJio d'occupation de ce(s) poste(s).
Complementary Question -jioAnglais / English:	Please explain in 400 words maximum how you possess this experience. Please provide concreteJio examples and the name and duration of the position(s) you occupied at that time.
Réponse Complémentaire: / Complementary Answer:jioJioSSC Cyber and IT Security Branch (Project Management) June 2015 - Present:jioJioI perform the role of the Project Manager for the Government of Canada's Internal Centralized Authentication Service (GC ICAS)Jio initiative. The GC ICAS initiative is a collaborative project which the Treasury Board Secretariat of Canada serves as the businessJio owner and Shared Service Canada serves as the technical service owner. Due to the nature of the GC ICAS project, as projectJio manager, it is my responsibility to interact with, and rely on multiple internal and external stakeholder groups to deliver projectJio deliverables. I am in constant communication, whether it be via email, conference/ face to face meetings with my stakeholders. UsingJio one on one session, my team assess stakeholder needs and negotiate outcomes that accommodate them to the very best of ourJio abilities. Fostering a friendly productive work environment is a key to a successful project management team and as such, I ensureJio that my team is client focused in our approach of actively tracking, recording and pro-actively resolving all important matters. With thatJio mindset, the GC ICAS steering committee terms of reference document was written to ensure a collaborative and transparentJio approach be taken to resolving project issues and concerns fielded by the various project stakeholders.JioJioSSC Operations Branch (Infrastructure Support) 2011-2014 - As both a technical analyst and team leader for the Distributed PrintJio Service (DPS):jioJio- I was responsible for service planning, service evolution, service optimization, and day to day service delivery. As team leader, oneJio many functions was client management/ engagement. The DPS was a subscription based service offered to many partners andJio client departments. Demand and requirement(s) management was another of my functions and was handled by holding clientJio engagement meetings and surveys. Such meetings were integral for the optimization of SSC's DPS as the various service offeringsJio were customized and tailored to meet the client department's specific needs.jio- I also managed and administered the technical components of the DPS along with its dependencies. I coordinated and definedJio technical service requests relating to the client's printing service needs and requirements. I leverage proposals with the best return onJio investment and adhered to predefined TBS standards and procedures when providing service purchase recommendations. IJio collaborated with partner groups to oversee and process requests for change and incident records relating to a variety of infrastructureJio changes, upgrades and issues.jio- As part of PWGSC's and SSC's desktop transformation projects, I met and collaborated with internal and external stakeholders toJio define service and project requirements. I generated weekly progress reports and provided feedback to the project managersJio regarding the printing component of the project. I researched and tested possible impacts on service and rectified known issuesJio caused by the implementation of the Windows 7 operating system within the existing printing infrastructure to mitigate against anyJio possible service downtime.jioJio	nan

Question - Français / French:	Commun à tous les volets - Avez-vous l'expérience de la formulation et de la mise en œuvre de plans et de stratégies de GI-TI?
Question - Anglais / English:	Common to all Streams - Do you have experience formulating and implementing IM/IT plans and strategies?
Réponse du postulant / Applicant Answer:	Oui / Yes
Question Complémentaire - Français / French:	Veuillez expliquer en 250 mots maximum comment vous rencontrez cette expérience. S.v.p. donnez des exemples concrets et indiquez le(s) poste(s) que vous occupiez ainsi que le nombre d'années d'occupation de ce(s) poste(s).
Complementary Question -	Please explain in 250 words maximum how you possess this experience. Please provide concrete
Anglais / English:	examples and the name and duration of the position(s) you occupied at that time.
Réponse Complémentaire: / Complementary Answer: Technical Advisor (Service Strategy) - Shared Services Canada - March 2014 - June 2015 The Functional Direction is a publication that details SSC's strategic outlook for its legacy and end-state services. The publication team was comprised of myself as team leader with 2 professional resources reporting to me. Together we planned, monitored and coordinated the end-to-end semi-annual publication of SSC's Functional Direction document. We generated a project plan and monitor its deliverables to ensure timely completion of all tasks. Collaborated with SSC Transformation Program content providers, Operations business leads and Client relationship managers to update, generate, assess and incorporate new content within the new release. Developed, validated and applied an end-to-end process map and corresponding procedure documents to facilitate the execution of the Functional Direction updating process. Collaborated with senior executives to align and incorporate their feedback within the SSC's Functional Direction document. Provided assistance in the creation of the end-to-end development framework for SSC Enterprise Standards. Established a governance structure, roles and responsibilities and associated RACI. Identified key integration points with existing enterprise documentation resulting in a reduction of content duplication. Developed and implemented the use of SSC's Standards template across all of SSC's Transformation Programs. Reviewed, validated and provided feedback on proposed SSC Standards content across all of SSC's Transformation Programs to ensure proper alignment with SSC's Standards template. Developed, validated and applied an end-to-end process map and corresponding procedure documents to facilitate the execution of the SSC Standards publishing process.	nan

Question - Français / French:	Commun à tous les volets - Avez-vous l'expérience de la présentation de conseils et de recommandations stratégiques sur les questions de GI-TI à la haute direction (directeurs et échelons supérieurs)?
Question - Anglais / English:	Common to all Streams - Do you have experience providing strategic advice and recommendations on IM/IT issues to senior management (Director level or above)?
Réponse du postulant / Applicant Answer:	Oui / Yes
Question Complémentaire - Français / French:	Veuillez expliquer en 250 mots maximum comment vous rencontrez cette expérience. S.v.p. donnez des exemples concrets et indiquez le(s) poste(s) que vous occupiez ainsi que le nombre d'années d'occupation de ce(s) poste(s).
Complementary Question - Anglais / English:	Please explain in 250 words maximum how you possess this experience. Please provide concrete examples and the name and duration of the position(s) you occupied at that time.
Réponse Complémentaire: / Complementary Answer: SSC Cyber and IT Security Branch (Project Management) June 2015 - Present: As Project Manager for the Government of Canada's Internal Centralized Authentication Service (GC ICAS) initiative, I manage project tasks and deliverable for timely completion. I identify risks and issues and work to mitigate them by negotiating acceptable solutions amongst project stakeholders. A key issue for the GC ICAS project was the inability to spend the allotted project budget forecasted for the FY14/15 caused by delays in the procurement process. Using the project steering committee which is comprised of members from TBS, SSC, CSE, I detailed the issue to the executive sponsors and suggested that the project identify its unspent budget as a carry forward for the next fiscal year. This approach was found to be mutually acceptable by all parties concerned and was actioned accordingly. I was tasked with drafting two briefing notes, one to the President's Office and the other to the Ministers Office requesting approval to proceed with a key procurement activity pertaining to my project during an election period. An election declaration can often postpone many initiatives as public announcements are often limited to not favour or embarrass the government currently in power. Within both briefing notes I identified and articulated the potential impacts of halting the project and illustrated the benefits of continuing with the industry engagement phase of the project. Consequently, the project was granted approval to proceed regardless of the election and industry engagement was initiated.	nan

Question - Français / French:	Commun à tous les volets - Avez-vous l'expérience de la recherche de consensus avec les clients, les partenaires ou les intervenants?
Question - Anglais / English:	Common to all Streams - Do you have experience building consensus with clients, partners or stakeholders?
Réponse du postulant / Applicant Answer:	Oui / Yes
Question Complémentaire - Français / French:	Veuillez expliquer en 250 mots maximum comment vous rencontrez cette expérience. S.v.p. donnez des exemples concrets et indiquez le(s) poste(s) que vous occupez ainsi que le nombre d'années d'occupation de ce(s) poste(s).
Complementary Question - Anglais / English:	Please explain in 250 words maximum how you possess this experience. Please provide concrete examples and the name and duration of the position(s) you occupied at that time.
